INNOVATION SCHOOL

We are an European  
**community**, not  
just a space

# What we do

## Coworking

A European coworking network exclusively dedicated to professionals working in tech and digital sectors. A global community of innovators that connects and works together to grow and develop.

## Innovation School

We offer training in the digital and innovation fields, with a special focus on coding, data, design, marketing and business. We train young people and professionals and we also organize initiatives for the new generations, to introduce them to the jobs of the future.

## Corporate Transformation

We support companies in their Digital Transformation journey by facilitating change through ad hoc training, open innovation and change management projects, working on Vision, Culture and Prototyping.

# Talent Garden & Hyper Island

**Talent Garden acquired a control stake in Hyper Island with the aim of creating an edu-tech alliance and involving other European digital schools in the future.**

The partnership between Talent Garden and Hyper Island will result in a group with a solid geographical footprint in Europe with physical presence in 12 countries, a strong position in the strategic Nordics area, South Europe and UK & Ireland and strategic establishments through Hyper Island in Asia-Pacific and the Americas. Talent Garden and Hyper Island will jointly employ a team of 250 professionals and hundreds of closely collaborating speakers, facilitators and trainers across three continents.

Hyper Island is a business school specialising in digital education with a range of accredited, part-time and full-time educational programmes (master's degrees) and intensive courses. It has more than 25 years of history. Headquartered in Sweden, Hyper Island has a global presence operating in Europe, Asia-Pacific, North and South America through physical establishments in the UK, Singapore, USA and Brazil.
